

## King County Brightwater Treatment Plant Tour

**Please join us on a tour of King County's wastewater treatment plant in Woodinville  
Friday, June 8, 2018  
9:30 am – 1:00 pm**

### **Capacity Limit: 25 maximum**

**A note from our host:** Please come dressed for the weather, as most of the tour is outside. Also, be sure to wear sturdy, closed-toe shoes. The tour will last two hours, which includes one mile of walking and several flights of stairs. Once we are out on the plant, there is not an option to leave early. Every tour participant will be required to wear a hardhat, safety vest, and safety glasses (all provided). These are simply used as precautionary measures--the tour is very safe!

**RSVP by May 20<sup>th</sup>, 2018 to [strongdespina@gmail.com](mailto:strongdespina@gmail.com)  
Details on transportation and other logistics will be sent to the attendees after May 20<sup>th</sup>, 2018. Cost \$5**

**Sponsored by the Senior Chemists Committee of the ACS  
Puget Sound Section**
