Summer Heat – Perfect for Picnics!

The Puget Sound section of the ACS is relatively inactive during the summer months. It gives everyone a chance to take a break and relax. I'm looking forwards to the fall when things will begin happening again, but I relish the current opportunity to sit back and review things.

There are a couple big events this month. In particular, the 248th American Chemical Society National Meeting will be happening in San Francisco Aug 10th-14th. The meeting's theme is about Chemistry and Global Stewardship. It should prove to be another outstanding ACS National Meeting!

Enjoy the sun!

Calendar – August 2014

Calendar of Events - <http://pugetsound.sites.acs.org/apps/calendar/>

August 2014 – No Executive Committee Meeting This Month – Summer Break

3-7 August 2014 – 2014 Biennial Conference on Chemical Education

Location: Grand Valley State University, Michigan

Website: <http://www.bcce2014.org/>

10-14 August 2014 – 248th American Chemical Society National Meeting

Location: San Francisco, CA 94103

Website: <http://www.acs.org/content/acs/en/meetings/fall-2014.html>

21 August 2014 – Informal Younger Chemists Committee Meeting

Time: 6:30pm – 7:30pm

Location: Specialty's Café & Bakery in U-Village - 2690 NE Village Ln, Seattle, WA 98105

News Briefs

Awards and Nominations

Jacqueline Barton, who won the Pauling Medal in 2008, has just received the ACS Priestly Medal!

Also, Gary Christian is now an ACS Fellow! Congrats! A well deserved honor!

<http://cen.acs.org/articles/92/i28/2014-ACS-Fellows.html>

Summer Break Continues!

The Puget Sound Section's hiatus from major events will last through the month of August! The next Executive Committee meeting will be in September.

2014 Biennial Conference on Chemical Education

Dates: August 3rd - 7th, 2014

Location: Grand Valley State University, Michigan

Theme: Empowering Chemical Educators for a Greener Tomorrow

Website: <http://www.bcce2014.org/>

248th American Chemical Society National Meeting

Theme: Chemistry and Global Stewardship

Dates: August 10th - 14th, 2014

Location: San Francisco, California

Website: <http://www.acs.org/content/acs/en/meetings/fall-2014.html>

**REGISTRATION
IS NOW OPEN!**

Younger Chemists Committee

YCC Basics

We are a local section of the national Younger Chemists Committee. The YCC was chartered by the American Chemical Society to address the specific needs of younger and early-career chemists. The YCC's vision is to lead younger chemists into successful careers and active roles in the ACS and the profession.

Email Jonathan Clark (Puget Sound YCC Chair) at PugetSoundYCC@gmail.com

Informal YCC Meeting

Thursday, August 21st, 2014 (6:30pm – 7:30pm)

Specialty's Café and Bakery in U-Village

Address: 2690 NE Village Ln, Seattle, WA 98105

Topics: Fall Events

Science Cafés

These Science Cafés are free and are open to all ages.

Science Cafés

The Queen Anne, Eastside, Tacoma and Olympia Science Cafés will not meet in August. Summer Break!!
Enjoy the Sun!!

Science on Tap

Science on Tap is another science café that meets in Seattle, WA. Information regarding the next Science on Tap event can be found on their website.

<http://www.scienceontap.org>

Mark Your Calendar

Sustainability Committee

The Puget Sound local section will host Prof. Donald Stedman of the University of Denver to give a seminar on “The Science and Politics of Mobile Source Emissions”

Two opportunities to attend:

Wednesday, September 17th, 2014 at 7pm at Pacific Lutheran University in Tacoma, WA

Thursday, September 18th, 2014 at St. Martins University in Olympia, WA (Time TBD)

WCCTA Conference

**2014 Annual Meeting of the Washington College Chemistry Teachers' Association
October 9th-11th 2014 at the Sleeping Lady Resort in Leavenworth, WA**

The WCCTA brings together chemistry educators from around the state of Washington and some from Oregon. They share ideas about best practices in teaching chemistry, teaching pedagogy, innovative chemistry labs, and engage in conversations on topics relevant to the WCCTA members in the beautifully relaxing atmosphere of the Sleeping Lady Conference Center. It is a great place to meet new colleagues, make friends, and network with community college and college chemistry faculty. Please plan to attend!

To register and submit abstracts, please visit: <http://www.wccta.org/>

To check out all of the conference info, visit: http://www.wccta.org/2014_Conference

October 2014 - PNNL Speaker at Evergreen State College

Dr. Dayle Smith

Senior Research Scientist

Pacific Northwest National Laboratory

will speak on

Unraveling complex structure-function relationships underlying metalloenzymatic catalysts for energy applications: learning from nature using a computational chemistry approach

October 22, 2014 at 5 PM

The Evergreen State College, SEM II A1105

Free and open to the public

Dinner with the speaker following the talk at the Budd Bay Café in Olympia (www.buddbaycafe.com)

Abstract: Metal-containing proteins play a central role in the activation of energy-relevant small molecules by biological systems. This talk will describe current synergistic research at Pacific Northwest National Laboratory in collaboration with academic institutions that aims to unravel how metal proteins regulate catalytic aspects of metalloenzymatic systems, specifically hydrogenase for conversion of protons and electrons into dihydrogen, methyl coenzyme M reductase for production of methanol from methane, and nitrogenase for synthesis of ammonia from dinitrogen. Evolution has optimized these enzymes to maximize reactant specificity and stabilize reaction intermediates while operating under ambient conditions of temperature and pressure. Our ultimate aim is to learn from nature to design bio-inspired molecular catalysts to replace the energy-intensive processes used today by leveraging biochemical characterization, inorganic synthesis and computational chemistry. This talk will focus on the latter, describing multi-scale computational chemistry applications that resolve key scientific questions about the role of protein structure and dynamics underlying biological catalytic mechanisms with regards to electron, proton and substrate delivery, protein dynamics, and reaction thermodynamics using state-of-the-art applications of quantum, classical and statistical physics and high-performance computing.

RSVP for dinner reservations only by 10/15/2014 to Dharshi Bopegedera at: bopegedd@evergreen.edu or (360) 867-6620

Park in Lot C for easy access to the Seminar II (SEM II) Building (cost is \$2)

Driving directions to Evergreen is available at www.evergreen.edu/tour/gethere.htm

Sponsored by: Academic Programs at Evergreen (Introduction to Natural Science, Environmental Analysis, Physical Systems, Introduction to Environmental Studies), The Evergreen Chemistry Club, and Puget Sound Section of the ACS

Careers

Job Opening – Evergreen State College

The Evergreen State College has a position opening for a chemist in their Evening-Weekend studies program for the 2014/15 academic year. The link to the job description is:
