Certificate Programs

OSHA 7225 Transitioning to Safer Chemicals

May 8-9- Portland, OR – [Register](#)

September 6-7- Seattle, WA – [Register](#)

CONTINUING EDUCATION PROGRAMS
PACIFIC NORTHWEST
OSHA EDUCATION CENTER
safe workplaces, sustainable communities

OSHA 7225:
TRANSITIONING TO SAFER CHEMICALS
Portland, Oregon

This course will guide participants through OSHA's substitution planning process for understanding and evaluating chemical use, identifying and assessing alternatives, and implementing those alternatives that are safer. OSHA 7225 is for professionals at all levels of chemistry understanding who play a role in product and materials selection.

Green Chemistry & Chemical Stewardship Online Certificate Program

September 27, 2017 - June 8, 2018

3-course program intended to give graduates the tools to make a difference and find success by learning to design safer chemicals and industrial processes. Businesses are facing increasing market and regulatory pressures to use less toxic chemicals in their manufacturing processes and products, and are in need of professionals who can provide innovative solutions and more sustainable substitutes.

During this program, we will explore:

- The 12 guiding principles of green chemistry
- Business drivers and barriers to implementing sustainable practices
- Frameworks for incorporating chemical toxicity and human health considerations into product design, material selections, and supply chain decision-making
- Environmental, economic, and societal benefits of green chemistry
- Latest research and regulatory developments in the field
- New tools for chemical design and methods for comparative chemical hazard assessments

Completion of all 3 courses is required to earn a certificate. Register online at osha.washington.edu or contact the DEOHS Continuing Education Programs at 206-543-1069 or ce@uw.edu.

Post-Doctoral Position in the Chemistry Education Research Group (ChEdR) ([University of Washington](#))

Deadlines: See posting for details

Location: Seattle, WA

ACS PSS Posting Date: 06/30/2017

Brief Description: The UW Chemistry Department is seeking a post-doctoral researcher to assist in the examination of student learning from in-class demonstrations. The project compares a traditional approach to demonstrations to an active-learning format that engages the students in predicting the outcomes and explaining the results of demonstrations. Particular emphasis is on the impact of the two approaches on performance gaps for student populations such as under-represented minority and women students. The post-doctoral researcher will be involved in all aspects of the project including development and implementation of the active learning protocols, design and facilitation of student focus groups, management and analysis of qualitative and quantitative data, management of undergraduate researchers, and dissemination of materials and outcomes.
